Obscene

As America celebrates its independence, corporate America has
An explosive report reveals that CEO pay in the U.S. has now reached 287 times that of the average worker. "Companies have finally started reporting CEO-worker pay ratios and now we know why they fought so hard to avoid it. The gap is obscene."

Become a part of the growing healthcare construction boom. [info@carpdc.org](mailto:info@carpdc.org).

**UBC LEADERSHIP**

Carpenters leadership training gives our members the communications, coaching and mentoring skills we need to carry our union into the future. Held at the UBC's International Training Center in Las Vegas, these comprehensive courses have already helped thousands of carpenters learn practical on-the-job tips.
